Two categories will participate in the 2026 1:5 I.C. Track World Championship:

1. OPEN - no restrictions on motor tuning parts
2. SPORTMAN - with the standard Zenoah motor

5. LOSTALLO AND TOURISM

Lostallo is a small village with almost every convenience. Virtually everything can be found in the valley, from the construction company to the butcher's shop, from the pizzeria to the hotel with restaurant. Its strategic location places it approx. 10 minutes' drive from many shopping centres, hotels, restaurants, museums, tourist attractions and much more.

Heading southwards, it takes 10 minutes to reach the Bellinzona region, which offers a variety of entertainment options and places to visit, such as the world-famous 'castles of Bellinzona', which have long been recognised by UNESCO (<https://www.bellinzonaevalli.ch/en/discover/castles.html>) .

Castle Grande

Castle of Montebello

Castle of Sasso Corbaro

Continuing southwards for another 20 minutes you can easily reach the Lugano and Locarno region by motorway. Here, too, there is no shortage of choices for an evening with friends in a breathtaking setting, and why not, perhaps a nice after-dinner boat ride on Lugano or Locarno lake... ([Lugano region](#) | [Lugano Region](#)) .

Lugano city

Casinò of Lugano

Locarno lake

Locarno Piazza Grande

If, on the other hand, we head northwards from Lostallo for about 15 minutes, the tourist area known as 'San Bernardino' comes into view. There are various possibilities for excursions, trips, sports and much more. ([San Bernardino](#) | [Moesano \(visit-moesano.ch\)](#))

In short, even though at first glance Lostallo might appear to be 'only' a small village, the possibilities are nonetheless many and will certainly satisfy the various needs of those who, in addition to the race, want to enjoy the region to the full.

5.1 HOTELS AND ROOMS

We invite you to visit our website www.mrtm.ch and go to the “Where to stay” section and there you will find some possibilities for hotels or to rent rooms from private peoples in the area.

8. EVENT ORGANISATION

8.1 TIMING SYSTEM

We have been using **Race Control Management (RCM) Ultimate** timing software from **RC-Timing** on our track for many years with great satisfaction.

The technical side is managed using RC4 decoders and personal transponders from MyLaps.

8.2 LIVE STREAMING AND VIDEO SUPPORT

Live streaming will be handled by PullstartTV (www.pullstart.tv), which will be present from Monday until the end of the event.

The Lostallo racetrack and PullstartTV have been collaborating for many years now, and the entire PullstartTV team has always demonstrated competence and expertise. Therefore, this decision should be seen as a confirmation of esteem and a sign of continuity in a relationship of trust that is now well established. PullstartTV will be supported by a commentator who will describe the race for the people around the track and for those who will be connected via live streaming from home.

In addition, there will also be a video-maker on the track who will be responsible for taking special footage with drones and conducting interviews, pit walks and track walks.

We are confident that with our media team, the World Championships will be excellent publicity for our sport and will provide even more detailed coverage than in the past, showing what goes on behind the scenes at such an event!

9.2 TECHNICAL INSPECTION

Technical Inspection will be held on **Tuesday** and **Wednesday 08.00** until **18.30** in provisional heat order. Drivers or mechanics have to present their cars with bodies, empty tanks, a bottle of fuel and transmitters.

9.3 OPENING CEREMONY

An Opening Ceremony will take place on Tuesday afternoon. The time must be published in the time schedule. Competitors will participate in a welcoming procession. Each national team is asked to wear similar shirts. A flag and sign bearing the name of each country will be provided by the organiser for each team.

Before the conclusion of the opening ceremony, there will be a competition for the most beautiful bodywork, which means that each driver must have the body they intend to present with them throughout the opening ceremony.

9.4 PRIZE GIVING CEREMONY AND BANQUET

On Saturday evening, after the track activities have concluded, a final banquet will be organised, during which the official award ceremony will also take place!

The 1. August is also Swiss National Day, so we will try to involve everyone present in the traditional celebrations associated with our national holiday!

We look forward to welcoming drivers, mechanics, wives, children and friends to another wonderful experience at our track!!!

Remember that Switzerland is not just chocolate, banks, cheese and watches!
