ELECTRIC ON ROAD CLASSES BODY APPROVALPROCEDURE

Dear Madame/Sir

IFMAR does allow body shells approved by its member blocks not less than 4 months prior to a World Championship.

However your company may wish to submit body shells to be used in 1/10th and/or 1/12th electric classes for approval to IFMAR directly, this for use at IFMAR World Championships where only approved body shells may be used.

The approval is subject to a cut-off date to ensure that all competitors have equal access to the approved products, safeguarding wherever possible fair racing to decide the World Champion.

IFMAR makes no representation as to the quality or efficacy of the products approved. IFMAR only approves that the body complies to the IFMAR specifications as published.

If your body shells are already approved by EFRA, ROAR, FEMCA or FAMAR and the blocks informed IFMAR of the approval you have no need to seek new approval unless changes have been made to a previously approved body, (any change does require a new number)..

Body shells, new or changed since their approval may be submitted directly to IFMAR at any time but not less than four (4) months prior to that years IFMAR world Championship in order to be eligible for that event.

Samples, pre-payments and supporting documents must be in IFMAR hands by this cut-off date.

The IFMAR Electric Section looks forward to receiving your products for approval.

Sincerely
Frank Mostrey
Electric Chairman, IFMAR

PLEASE READ THIS FIRST

Any manufacturer, may submit body shells for approval providing they meet the specifications, requirements and Global Body Specifications (GBS) as set by the IFMAR rules in force at the time of approval.

Do study the latest IFMAR world Championship rules, "Electric track racing and technical rules" and more precisely the specifications for 1/12th and 1/10th electric bodies before sending samples

(See IFMAR website: <http://www.ifmar.org>)

IFMAR APPROVAL PROCEDURE:

- Ensure that the body is fully compliant to IFMAR requirements.
- Send one sample and application form (page 3) with photographs of the full size car on which the body is inspired at no cost for receiver to:

IFMAR Electric Chairman

I did read understand and agree that:

Shipments against any payment will not be accepted. Delayed products or incomplete applications *(Samples, documents or payment beyond the submission date)* will not be allowed to the approval process.

Submissions that turn out to be subject or matter to complaints regarding international regulations or infringing patents will be withdrawn from the list, even after approval. In such case the submitter and/or the represented company fully agrees not to make any claim against IFMAR, including IFMAR's representatives, employees, and subcontractors.

Furthermore he shall indemnify these against any legal liability for claims or suits, including costs and expenses incidental thereto provided that IFMAR shall notify the submitter of any claims or suits without undue delay.

The decision to refuse or approve bodies is IFMAR's exclusive right and cannot be an issue to any claims.

Submitted bodies will not be returned

Samples and data submitted may be used as reference to check bodies at IFMAR World Championships and submitter does grant IFMAR unconditionally the full rights to publish images and data of the submitted products.
