# TIRES

Beachline  
2023

IFMAR  
1/12 WORLD  
CHAMPIONSHIPS

## Control Tires

Handout tires will be available for purchase starting on Monday, Dec. 4th.

Drivers will be limited to 12 (marked) complete sets for Qualifiers and Mains.

Additional tires are available to purchase for the first day of practice as well as morning practice sessions.

Tires will be impounded for the duration of the event. Drivers will be required to pick up and return their tires at the technical inspection area before and after each run.

## Venue Information

Located on Grissom Parkway in Cocoa, Florida, Beachline Raceway is the largest indoor racing facility in the state. The track is conveniently located within minutes to beaches, restaurants and numerous hotels. The 2014 1/10 ROAR Off Road Nationals was hosted at this facility under different ownership, and is now the home of the prestigious off-road carpet race, the Florida Carpet Champs. Beachline also hosts monthly ON-ROAD club races, the FSEARRA On-ROAD State Race as well as the annual Turkey Shoot Race that will act as our World's Warm-Up race.

The track uses the LiveRC timing and scoring system, has a fully stocked hobby store onsite as well as indoor/outdoor pitting areas, a large drivers' stand, indoor restrooms, snack machines, and plenty of parking. The track's current surface is CRC black carpet with subflooring.

# Venue Information

## Scoring

LiveTime Scoring system will be used as the official timing system. MyLaps RC4 Transponders are recommended. 2.4 GHz is the preferred transmitter frequency.

## Pitting

Each entry will come with one pit spot and a wooden stool. Pit Mats are mandatory and will be for sale in the hobby shop.

## Power

The standard for voltage and frequency in the United States is 110-120 volts at a frequency of 60hz, which uses plugs and outlets as shown in the pictures.
