Kansai International Airport

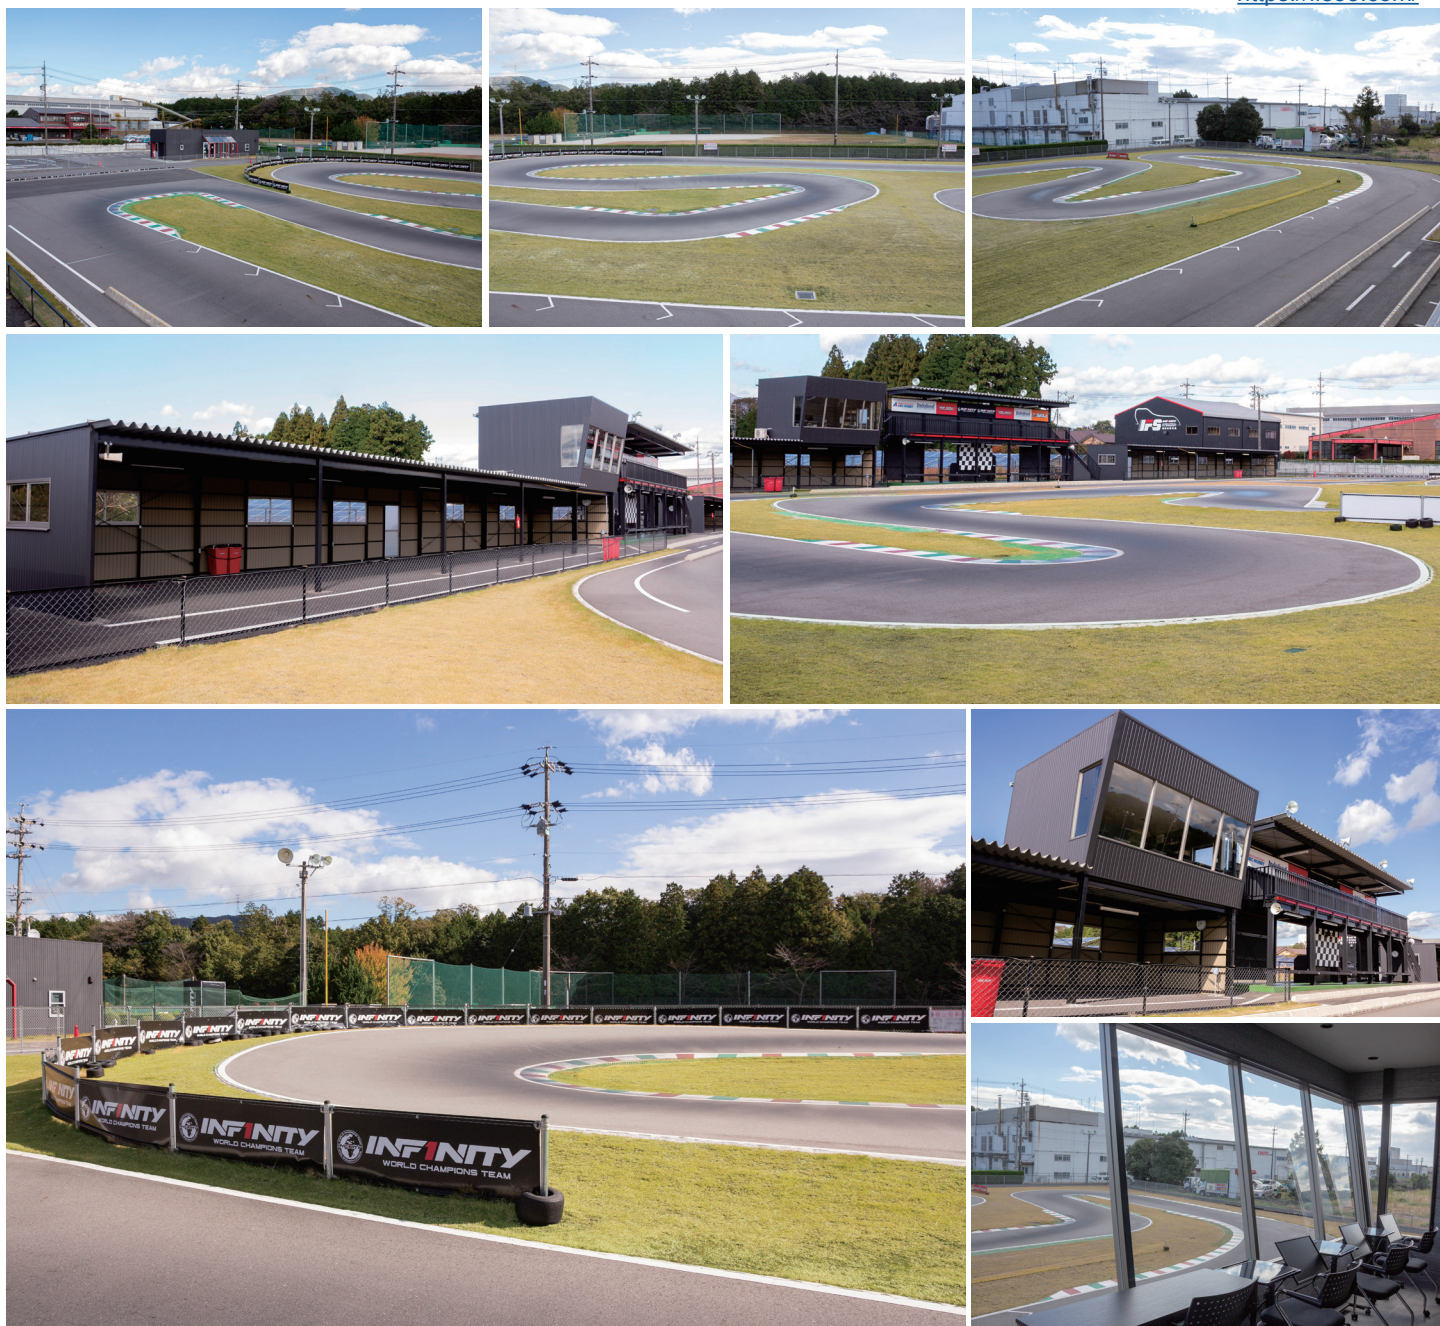

<https://www.kansai-airport.or.jp/en/>

INFINITY International RC Speedway [IFS]

On-road facility with an asphalt surface. The race track size is 80 x 40 meters. The 25 meter long drivers stand ensures adequate space and comfort for every drivers.

<https://ifs55.com/>

Rules

The race will follow 2023 IFMAR Rules. Check the IFMAR webpage for the updates and muffler / body list. Updated rules for the event should be ready by the end of March, 2023.

TRANSMITTERS (Approved Frequencies)

1. Use of 2.4GHz frequency band is allowed.

LAP COUNTING and TRANSPONDERS

Each participant is responsible for attaching a My Laps RC4 compatible transponder to their car during the whole event, including practice.

Live RC will be used for the event time schedules and will be available to the media for the whole races in live to the web.

Fuel

Controlled fuel will be used for this event. See IFMAR rules 2023. There will be a choice of up to two brands which must be chosen in your entry form. Changing the fuel brand is limited and depends on the availability.

- **Administration of Fuel**

All fuels in their necessary quantities will be brought in at the venue in 4L production cans as sold in the market (and not of a unique quality specifically formulated for the event) prior to the event, which will be administered by the Organizer. All fuels then will be repackaged into smaller bottles, and grouped into 10 bottles each to be handed out for pit crews, for drivers of the heat immediately following and for refills.

- **Distribution of Fuel.**

Drivers are given their own choice of fuels. Fuel bottles will be handed out to pit crews upon entering the pit area (where one-way traffic is enforced) and will be collected by the Organizer after the race for refilling. In case of fuel supply shortage, additional fuels may be brought in the same administration manner as described in the previous section above under IFMAR's supervision.

We sell both OS and Maxima fuels. The price is JPY5,500. We also sell paint sprays, brake cleaners, etc. Payment is in cash, credit card accepted.

Tires

A Controlled tire (one tire brand for all, one diameter for front and rear, during all official racing) will be used for this event. See IFMAR rules 2023.

Product Name	Size	Product Number
Matrix 1/8 Front 32°Japan Edition	69 mm	YTM-NL0832FJ
Matrix 1/8 Rear 35°Japan Edition	76 mm	YTM-NL0835RJ

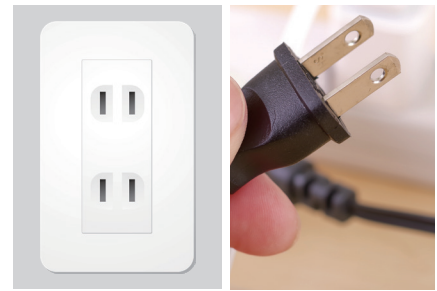

We also sell practice tires.

- Matrix 1/8 Front Tires 32° Japan Edition 69 mm (YTM-NL0832FJ) JPY2,100
- Matrix 1/8 Rear Tires 35° Japan Edition 76 mm (YTM-NL0835RJ) JPY2,300

Other information

Each contestant will be allocated pit tables chairs and AC 100v available. It is necessary to bring your own connectors and 12V DC power supply. Please note: That the space is limited for driver, should you have an extra mechanic kindly use same area allocated to the driver.

In-House kitchen (Local foods) is available, including drinks and snacks.
