SPEC / MOD ELECTRIC MOTOR APPROVAL PROCEDURE 2024

Dear Madame/Sir

The **2024** IFMAR World Championships for the Electric **ON-Road classes**, **10th scale ISTC** will be held this November in California USA.

The approval is to ensure that all competitors have equal access to the latest modified class motors, thus ensuring wherever possible, fair racing to decide the World Champion.

IFMAR makes no representation as to the quality or efficiency of the products approved.

IFMAR only approves compliance with its rules and by then is never liable for any issues that may occur correlated to IFMAR approved motors.

If your motors are already IFMAR approved, you have no need to seek new approval unless changes have been made **(ALL 17.5 SPEC Motors MUST be approved)**. If any parts of an approved motor are changed, the motor must be sent to IFMAR for re-approval.

If you wish to submit new products or products which are changed since their last approval for use at the next Electric On-road W.C. and future IFMAR W.C events you must **send in time**, for delivery **between March 25th thru July 5th, 2024**.

The absolute deadline for samples, payment and documents is **JULY 5th**. No exceptions will be made
The IFMAR Electric Section looks forward to receiving your products for approval.

Sincerely
Tim Caporal
Electric Chairman, IFMAR

PLEASE READ THIS FIRST

Any manufacturer, distributor, agent or retailer may submit products for approval. Providing the products meet all the specifications and requirements of the IFMAR rules in force at the time of approval, are submitted by the closing date and fully meet availability requirements as required by IFMAR.

You are strongly advised to thoroughly study the latest “IFMAR ELECTRIC RACING BATTERIES and MOTORS” rules - See IFMAR website: <http://www.ifmar.org>

▼ *Be aware that Motors/Rotors not complying will be failed without prior notice. Submitted motors will not be returned* ▲

Only IFMAR approved motors may be used at these events. They must meet all IFMAR specifications and be widely commercially available (*at least in 2 continents, preferable in 3 or more*) four (4) months prior to the World Championship. Availability must be met by providing addresses at the time of submittal and are subject to spot-checks at these and other retailers.

* When all fees are paid and upon receipt of the inspection sheet from the appointed engineer confirming that the product meets all technical specifications, and the Chairman is satisfied that all IFMAR availability requirements have been met, the product will be included as an add-on to the existing approved list for use at WC events.

1st: Make sure that the motor is fully compliant to all IFMAR rules. You need 6 fully build samples

Prepare two sets: A & B:

I hereby declare to be fully mandated to submit these samples for and on behalf of the company and that the above information is correct to the best of my knowledge.

I hereby confirm that at least 200 motors will be widely available in two continents at 4 months before the next concerned IFMAR world championships and unconditionally agree that availability may be subject to spot checks

Submitter accepts that the samples and data submitted will be used as reference to check motors (destructively) before, during and at IFMAR World Championships and do grant IFMAR full rights to unconditionally publish images and data of the above products.

It is commonly agreed that approvals turning out not to be commercially available in a satisfactory manner or subject or matter to complaints regarding international safety regulations or infringing patents will be withdrawn from the list, even after approval. In such case the submitter shall not make any claim against IFMAR, including IFMAR's representatives, employees, and sub-contractors but shall indemnify these against any legal liability for claims or suits, including costs and expenses incidental thereto provided that IFMAR notifies the submitter of any claims or suits without undue delay. I the submitter unconditional agree to reimburse any at all penalties or import charges that may be invoiced after delivery to IFMAR or its officers, plus a handling fee of 25 USD, even if the parcel was not delivered, or released from impound too late.

I understand and agree that the decision to accept, refuse or approve motors is IFMAR's exclusive right and cannot be an issue to any claims and that submitted motors / rotors will not be returned.

The general terms and conditions of IFMAR apply to approvals and to all agreements that you enter into with IFMAR. By signing this form you declare that you agree with the general terms and conditions.
